Fertilizer Research **30**: 297, 1991

Index to Volume 30

Singh, B.R.: Selenium content of wheat as affected by selenate and selenite contained in a Cl- or SO_4 - based NPK fertilizer 1
Anderson, D.L.: Soil and leaf nutrient interactions following application of calcium silicate slag to sugarcane 9
Vijay Kumar, Gilkes, R.J. and Bolland, M.D.A.: Residual phosphate fertilizer compounds in soils *I. Their estimation using selective extractants* 19
Vijay Kumar, Gilkes, R.J. and Bolland, M.D.A.: Residual phosphate fertilizer compounds in soils *II. Their influence on soil tests for available phosphate* 31
Diederichs, C.: Influence of different P sources on the efficiency of several tropical endomycorrhizal fungi in promoting the growth of *Zea mays* L. 39
Naidu, R., Syers, J.K., Tillman, R.W. and Kirkman, J.H.: Assessment of plant-available phosphate in limed, acid soils using several soil-testing procedures 47
Tokunaga, Y.: Potassium silicate: a slow-release potassium fertilizer 55
Norwood III, V.M. and Kohler, J.J.: Investigation of electrodeless conductivity as a technique for monitoring sulfate levels during production of wet-process phosphoric acid 61
Amin, F. and Thomassin, J.H.: Porous phosphatic materials of agronomical interest: *Synthesis and study of their dissolution* 71
Dillard, E.F., Burnell, J.R. and Gautney, J.: Stable suspension fertilizers from monoammonium phosphate 77
Doshi, S.R.: Fusion blend 87
Rutland, D.W.: Fertilizer caking: mechanisms, influential factors, and methods of prevention 99
Taylor, L.: Criteria for blend plant design 115
Preface *by* S.J. Van Kauwenbergh, L.B. Williams and G.H. McClellan 123
McClellan, G.H.: Use of East and Southeast African indigenous agrominerals for fertilizer production 125
Van Kauwenbergh, S.J.: Overview of phosphate deposits in East and Southeast Africa 127
Songore, T.: The Matongo phosphate deposit in Burundi 151
Assefa, A.: Phosphate exploration in Ethiopia 155
Gaciri, S.J.: Agromineral resources in Kenya 165
Manhica, A.: Phosphates and apatite of Mozambique 167
Mchihiyo, E.P.: Phosphate potential in Tanzania 177
Mwambete, I.: Tanzania fertilizer mineral deposits 181
Kisitu, V.B.: Fertilizer material occurrences in Uganda 187
Kisitu, V.B.: Some aspects of using rock phosphate as direct application fertilizers 191
Tether, J. and Money, N.J.: A review of agricultural minerals in Zambia 193
Sliwa, A.S.: Phosphate resources of Zambia and progress in their exploration 203
Lombe, W.C.: Phosphate beneficiation experiments in the School of Mines, University of Zambia 213
Borsch, L.: Stream sediments and soils as a geochemical guide to apatite mineralization in Eastern Zambia 225
Muyovwe, C.H.: Radiometrics in the search for rock phosphate 239
Barber, B. and Muchenje, J.: Sulfuric acid production in Zimbabwe 243
Barber, B.: Calcium carbonate source rocks in Zimbabwe 245
Barber, B.: Phosphate resources of carbonatites in Zimbabwe 247
Williams, L.B.: Establishing a viable fertilizer sector in African countries 279
Index to volume 30 297
Instruction to authors 301

Fertilizer Research **30**: 298, 1991
